

Case Study: Lab Upgrade Project

Job Title:

Lab Upgrade Project

Company:

Confidential

Location:

South East

Duration:

18 Months

Objectives:

To complete BOD, Detailed Design and Construction of a Laboratory Consolidation Project.

As part of an ongoing expansion, our client identified a requirement to consolidate and centralise their laboratories into a fallow space within an IDA industrial building which needed conversion from automotive component manufacturing use to GMP pharmaceutical manufacturing.

The facility needed to include the following:

- ❖ Raw Materials Lab
- ❖ HPLC Lab
- ❖ Write up areas
- ❖ Other laboratory support areas (Oven Room, Washroom etc.)
- ❖ Support office and meeting areas
- ❖ Gowning Area
- ❖ Plant room area

Prochem completed Basis of Design and detailed design and provided construction monitoring support for the 2,000 m² facility.
